BAUER Takes on COINS 3 Peaks Challenge

A team of four from Hertfordshire-based BAUER Technologies Ltd is well on course in its fund-raising efforts, as the quartet train to take part in the gruelling COINS 3 Peaks Challenge in May this year.

This demanding annual event, which seeks to raise funds for the charity The COINS Foundations (www.coinsfoundation.org), challenges teams from UK construction companies to climb the UK's three highest mountains – in order of climb Ben Nevis in Scotland; Scafell Pike in the Lake District, and Snowdon in Wales – all within a 24-hour period.

Up for the challenge is Managing Director Michael Jones, with three colleagues, Weena Jones, Yvonne Ainsworth and Kevin Smith joining him and already pledges are coming in. The Company has set up dedicated web-page at www.bauertech.co.uk and from there a link to its donations website, where donations and sponsorship can be pledged.

Speaking about the challenge Michael Jones said: "The COINS Foundation is such an excellent charity and we're all busy training to ensure we are successful. We really want to raise as much money as possible, which adds to the challenge, and the fact we are competing against other UK construction companies is a great motivator."
