

VINCI BAM Nuttall Joint Venture
Tottenham Court Road Station Upgrade
19-23 Oxford Street
London
W1D 2DN

Ref: VBN-EXT-8742-LET-000646

Date: 20th July 2011

To Whom It May Concern,

At the end of 2009 Bauer Keller JV (BKJV) were awarded the subcontract for piling and diaphragm walling at Tottenham Court Road Station Upgrade project being undertaken by a Joint Venture between Taylor Woodrow and Bam Nuttall Limited (referred to as VBN).

During the period of the project Bauer Keller JV have successfully installed:

- secant pile walls,
- permanently lined and permanently cased large diameter bored piles (up to 2.4m dia x up to 68m deep),
- Diaphragm walls 1m thick x 41m deep
- Plunged column piles with plunges protruding 24m above top of pile, installed to 1:400 verticality

Bauer Keller's works have been completed on programme and to a high quality standard.

During the 18 months they were on site, the BKJV team were fully integrated into the VBN team and at all times approached the challenges on the project with a professional manner and a problem solving attitude. Their commitment to Safety on site was of the highest standard fully embracing the main contract Behavioural based programme and ethos of 'Don't walk by'.

I would therefore have no hesitation in recommending Bauer Keller for future works.

Yours faithfully,

Jez Haskins
Project Director
