

Environmental Policy

Bauer Technologies Ltd recognises that its operations directly impact upon the environment & aims to continually monitor & assess the environmental implications of all activities. In addition, we will actively seek the cooperation of our clients & suppliers in minimising adverse effects.

All substances used in our processes will be controlled through correct use & disposed of carefully. All scrap produced by our manufacturing processes will be sent for recycling or controlled disposal.

To achieve maximum efficiency of our resources we will minimize material & energy wastage & use equivalent recycled alternatives where available.

Through consultation, awareness & training programmes we will promote adherence to this policy to all employees.

Bauer Technologies Ltd will always work with their clients to ensure that all legislative requirements both at a National and local level are complied with.

It is the duty of all employees within Bauer Technologies Ltd to ensure adherence to this policy & to continually seek improved performance.
