

Press Release

Date: 2nd October 2023

Ref: PRS049.BTL

Bauer Technologies Leadership Change to Bolster Business Growth

Leading geotechnical contractor BAUER Technologies Ltd has appointed John Theos and Paul Doyle as Managing Directors. The appointments provide continuity and underlines the business growth plans for BAUER's UK operation.

John Theos joins Bauer Technologies from BAUER Spezialtiefbau GmbH, where, since 2016, he was responsible for the Americas, in his remit as Regional Director. Paul Doyle joined Bauer Technologies in 2016, as Project Director, and was later promoted to Operations Director in 2018. Between them, John and Paul have a collective experience of more than 55 years in the piling and geotechnical sector.

Michael Jones has just completed his second period as Managing Director of Bauer Technologies, after originally opening and running the company between 2007 – 2012.

Speaking of the management change, John Theos said: "I'm delighted to be joining Bauer Technologies, returning to the UK, to reengage with the piling geotechnical industry and expand its reach". Paul Doyle commented: "This is an exciting time for Bauer Technologies, with the appointment of John and I devised to compound and further strengthen the strong market position that Bauer Technologies already occupies, as one of the most exciting and dynamic specialist geotechnical contractors in the UK.

Bauer Technologies' outgoing Managing Director, Michael Jones, said: "Both John and Paul have a wealth of experience within BAUER and are therefore uniquely placed to leverage the synergies between BAUER subsidiaries and the parent company. Their appointment is pivotal to growing the business and making a positive difference to how we work with our existing clients and helping to attract new ones."

-Ends-

Notes for Editors:

BAUER Technologies Ltd:

BAUER Technologies Ltd is part of BAUER Spezialtiefbau GmbH, a global construction company specialising in complex and specialist foundation works, with its head office based in the town of Schrobenhausen, Germany.

BAUER Technologies Ltd is the 100% owned UK subsidiary of BAUER Spezialtiefbau GmbH, the contracting company within the BAUER Group, and is the only geotechnical contractor in the world accredited with BRE BES 6001 sustainability certification [*November 2021*].

BAUER is known the world over as a leader in advanced deep foundation techniques. Whether it is the manufacture of specialised equipment, giving specific advice or performing the site works, BAUER is highly regarded world-wide by both consultants and contractors as the perfect partner in deep foundation projects.
