BAUER Technologies Appoints Paul Doyle as Sole Managing Director

July 2026 – BAUER Technologies Ltd has announced the appointment of Paul Doyle as sole Managing Director, marking a significant milestone as the company continues to strengthen its position within the UK geotechnical and specialist foundation engineering sector.

Having joined BAUER Technologies in 2016, Paul has played a pivotal role in the company's growth and operational success. Progressing through senior leadership positions, including Operations Director, he has built a reputation for delivering complex geotechnical solutions while fostering strong relationships with clients, project teams and the wider industry.

In his new role, Paul will lead the strategic direction of BAUER Technologies, with responsibility for driving the business forward, supporting continued growth and ensuring the company remains at the forefront of technical excellence, innovation and operational performance.

With extensive experience spanning the geotechnical and piling industry, Paul has been instrumental in the successful delivery of many of the UK's most significant infrastructure projects. His portfolio includes major schemes such as Ardersier Energy Transition Facility, Woodsmith Mine and Belfast Harbour, alongside numerous complex foundation and ground engineering projects across the infrastructure and commercial sectors.

Commenting on his appointment, Paul said:

"It is a privilege to take overarching responsibility for BAUER Technologies. Having been part of the business for almost a decade, I've seen first-hand the expertise, commitment and professionalism of our people, which is what truly sets us apart.

"The market continues to present exciting opportunities, and supported by the global expertise and innovation of the BAUER Group, we are exceptionally well placed to deliver technically challenging

projects while continuing to provide the high levels of quality, safety and client service for which BAUER Technologies is recognised."

Paul's appointment reflects BAUER Technologies' commitment to building on its strong foundations and driving the business forward. Under his leadership, the company will continue to strengthen its position within the UK geotechnical sector, delivering technically complex foundation engineering solutions across infrastructure, energy, industrial and commercial developments.

Backed by the technical expertise, innovation and international resources of BAUER Spezialtiefbau GmbH, BAUER Technologies continues to deliver complex foundation engineering solutions for some of the UK's most demanding construction and infrastructure projects

NOTES FOR EDITORS:

About BAUER Technologies Ltd

BAUER Technologies is part of BAUER Spezialtiefbau GmbH, a global construction company specialising in complex and specialist foundation works, with its head office based in the town of Schrobenhausen, Germany.

BAUER Technologies is the 100% owned UK subsidiary of BAUER Spezialtiefbau GmbH, the contracting company within the BAUER Group.

BAUER is known the world over as a leader in advanced deep foundation techniques. Whether it is the manufacture of specialised equipment, giving specific advice or performing the site works, BAUER is highly regarded world-wide by both consultants and contractors as the perfect partner in deep foundation projects.
